OUR STORY

ZBROZ® specializes in the niche market of UTV's, snowmobiles and snow bikes including our own in-house shock brand EXIT Shocks. ZBROZ® Racing (short for Zollinger Brothers) was founded by 4 brothers: Lance, Ryan, Anthony and Nathan. ZBROZ® was formed as a race team originally in 1998 as we started racing modified snowmobiles, professionally on the RMSHA circuit. Our quest to be the very best began as we looked to dominate in modified classes. We quickly realized everyone was fast, but unable to reach their true potential due to the lack of control. We needed a better suspension system. In 1999 we started working to improve, and learned the art of experience is rooted in racing. We continue to enjoy all forms of riding and racing. Whether it's on a snowmobile, UTV or moto hitting the mountain trails or putting down some laps at the track.
